

Training Course

International Safety Management (ISM) Code & Designated Person Ashore (DPA) Course

Description

The International Safety Management (ISM) Code & Designated Person Ashore (DPA) Course at Global Horizon provides maritime professionals with the essential knowledge and skills to ensure effective implementation of the ISM Code and fulfill the responsibilities of a Designated Person Ashore (DPA). This course offers a comprehensive understanding of safety, environmental protection, and risk management within the maritime sector, ensuring compliance with international regulations.

(ISM) Code &(DPA) Course Objectives

- Develop a solid understanding of the ISM Code and its role in maritime safety.
- Gain in-depth knowledge of the DPA's responsibilities, authority, and key functions.
- Learn how to monitor and verify safety, quality, health, and pollution prevention activities.
- Understand regulatory compliance based on IMO MSC-MEPC.7/Circ.6 guidelines.
- Enhance risk assessment and incident investigation skills to achieve zero incidents.
- Implement best practices for continuous improvement in the Safety Management System (SMS).

Who Should Attend

- Designated Persons Ashore (DPA)
- Company Security Officers (CSO)
- Fleet Managers & Superintendents
- Quality & Compliance Managers
